NEHAL INGOLE

DevOps Engineer · Cloud Infrastructure · CI/CD · AWS · Kubernetes

Pune, Maharashtra, India | +91 7397966719 | nehalingole2001@gmail.com | LinkedIn | GitHub | nehalingole.in | Blog

SUMMARY

DevOps-focused Software Engineer with 3+ years of hands-on experience designing, provisioning, and operating production cloud infrastructure on AWS. Proven ability to build CI/CD pipelines (GitHub Actions, Jenkins), manage containerized workloads with Docker and Kubernetes (EKS), implement Infrastructure as Code with Terraform, and deliver observability with Prometheus, Grafana, and CloudWatch. Designed and deployed a highly available EMQX MQTT platform supporting 100,000+ concurrent connections. Active open-source contributor (13+ merged PRs) and technical writer (80+ articles). Seeking Platform / DevOps / Cloud Engineering roles.

TECHNICAL SKILLS

Cloud / AWS	EC2, EBS, S3, IAM, VPC, Subnets, ELB/ALB, Lambda, CloudWatch, RDS, SQS, ECR, EKS, Route 53, Backup & Disaster Recovery
CI/CD & Automation	GitHub Actions, Jenkins, Docker, Kubernetes (EKS), Terraform, Ansible, Bash/Shell Scripting, Linux (Ubuntu)
Observability	Prometheus, Grafana, CloudWatch, MQTT, EMQX
Languages & Practices	TypeScript, Bash, Git, Agile, Code Reviews, Infrastructure Documentation, GitOps concepts
Supporting Frontend	React.js, Next.js — useful for full-stack deployment understanding and frontend CI/CD pipelines

WORK EXPERIENCE

Software Developer — Frontend & Cloud / DevOps
Jan 2025 – Present

Kshan Tech Soft Pvt Ltd | Pune, India

- Implemented and maintained CI/CD pipelines with GitHub Actions for automated build, test, and deployment of production applications across environments.
- Managed AWS infrastructure including EC2, S3, Lambda, IAM, VPC, and CloudWatch; ensured reliable, repeatable releases and environment consistency.
- Improved application and infrastructure stability through testing, debugging, performance tuning, monitoring, and incident response.
- Collaborated with product and engineering teams to translate requirements into scalable, maintainable cloud-native software and supporting infrastructure.
- Supported environment provisioning, configuration management, and documentation for development and production workloads.

Software Developer
Apr 2023 – Dec 2024

Alif View Media | Remote

- Built and deployed fully responsive production websites using React.js, TypeScript, and Tailwind CSS from complex Figma designs.
- Delivered pixel-accurate, accessible, high-performance frontends with strong focus on Core Web Vitals; collaborated on cloud-based media solutions.

DevOps Intern
May 2021 – Aug 2021

LinuxWorld Informatics Pvt Ltd

- Supported end-to-end CI/CD workflows using Jenkins, Docker, Kubernetes, and Git; completed 10+ practical DevOps and ML projects covering containerization, orchestration, and pipeline automation.

KEY PROJECTS

EMQX Real-Time Messaging Platform | EMQX, Docker, Kubernetes, AWS, MQTT, Prometheus, Grafana, Terraform **(Notion)**

- Designed and deployed a highly available EMQX MQTT cluster on Kubernetes supporting 100,000+ concurrent connections with auto-scaling and HA architecture.
- Containerized services with Docker; provisioned AWS infrastructure (VPC, compute, storage) using Infrastructure as Code principles.
- Implemented Prometheus + Grafana dashboards for health, connections, and alerts; built CI/CD pipelines for automated build, test, and deployment with full observability.

AI Workspace | Next.js, React, TypeScript, Docker **|** a-icanvas.vercel.app

- Built and containerized an AI productivity platform (chat, infinite canvas, mind maps) with end-to-end Docker deployment and performance-focused architecture.

AnimioUI | A React component library

animioui.in | Remote

- Designed, shipped, and maintain a production-ready React + TypeScript component library with fully typed APIs and documentation.
- Applied modern DevOps practices for open-source releases, semantic versioning, continuous delivery, and package publishing workflows.

EDUCATION

B.Tech in Information Technology 2019 – 2023

Government College of Engineering, Karad (Shivaji University) CGPA 7.98 / 10

ACHIEVEMENTS & CERTIFICATIONS

- Open Source: 13+ merged contributions across infrastructure, AI, and web projects; creator & maintainer of AnimioUI.
- Technical Writing: 80+ Hashnode articles covering AWS, DevOps, React, TypeScript, Docker, Kubernetes, CI/CD, and cloud-native practices.
- Hackathons: 2nd Runner-Up, GCEK Hackathon 2022; 4th Position, GCEK Ideathon 2023.
